Oaklands Hospital

GP Education Programme

2018

Oaklands Hospital

Part of Ramsay Health Care

GP Education Programme

Oaklands Hospital are delighted to organise GP education talks at your practice to enable valuable face-to-face Consultant/GP interaction. We are happy to arrange sessions on a date and time convenient to you.

All talks will be presented by a Consultant of your choice who practices at Oaklands Hospital and requests for bespoke topics are always welcomed. The session consists of a short presentation on the topic of your choice followed by time to ask individual questions and discussion.

Q&A sessions: You have the questions, we have the answers. Our Q&A sessions are more informal and do not require a powerpoint presentation. These sessions are designed for you to ask our Consultants questions on how to manage patients in primary care, examination techniques, medication advice, when to refer, when to use diagnostics and many more. Again, on a date/time convenient to you.

A certificate of attendance is issued for all participants and we will provide food and refreshments if required.

This service is completely complimentary and can be incorporated in your CPD evidence.

Below is a list of suggested topics and if you would like to be part of the GP Education Programme please contact your GP Liaison Officer Hayley Atack on email:

hayley.atack@ramsayhealth.co.uk or mobile: **07554 663 080**

We look forward to the opportunity to meet all of you and keep you updated on our services and consultants practicing at Oaklands Hospital.
